SPARK PLUGS

The famous BLUE spark plug with Aluminox insulator and new high duty electrode alloy to give you easy starting, sweet running and unfaltering performance under all conditions from "Shiftgear Shopping" to "Motorway Motoring"—10,000 miles of perfect service for 3/6d.—You can't beat this anywhere in the world!

From 3/6 each

UNIVERSAL REAR LAMP

Brilliant signal red Diakon lens — Easy single hole fixing—These are but two of the many virtues of this neat and attractive lamp, which combines rear lamp, reflector and clear panel for number plate illumination. Complies with British Standards Specification

REAR model only 9/-

REAR/STOP model 11/6

CHARGEMOBILE

Today's mobile battery charging sensation! This is the unique battery charger that is fitted to your vehicle, allowing the battery to be charged anywhere—anytime from a mains supply of 220-250 volts. Automatically adjusts its charge according to battery condition. Available in 6 volt or 12 volt circuits.

PRICE 59/6 complete
with output leads

110 volt models also available.

FILTER LINK

This is one filter you cannot afford to be without. It arrests power robbing dirt—protects carburettor needle and jets—stops flooding—saves fuel. Two, 3" Filter Links are available for $\frac{1}{4}$ " o.d. and $\frac{3}{8}$ " o.d. pipes and a 12" x $\frac{1}{4}$ " o.d. Filter Link is produced for gravity feed engines which can be cut to required length.

ALL SIZES 3/9

TORINO HORNS

These are horns with a big difference — A new type of twin — coil tone unit giving exceptional sound volume, and penetrating note. Attractively finished with grey body, chromium rim and metallic red tone plate contribute to a horn you will be pleased to buy and proud to own. Two notes are available to constitute a "HI-LO" pair. For single use the "LO" note is recommended. Made in 6 volt and 12 volt.

PRICE 27/6 each All Black Version 21/- each

TRICON SWITCH SERIES

DUCON Model. Fitted with two controls for headlamp dipping and horn push.

PRICE 10/6

TRICON Model. Combines headlamp dip switch, horn push and engine cut-out switch.

PRICE 11/6

TRICONSUL Model. Combines headlamp dip switch, horn push and pass lamp switch.

PRICE 12/6

All models made to fit $\frac{1}{2}$ " handle-bars.

WIFLEX HANDLEBAR MIRROR

Essential to safety, this mirror fits neatly into the end of $\frac{1}{2}$ " handlebars and an ingenious spring loaded joint corrects the mirror if accidentally knocked out of alignment. Large **ROUND** mirror shows more at a quicker glance—provides unobstructed view due to its optically correct shape. Beautifully finished in chromium.

PRICE 22/6

H.F. 140 HORN

One of the most popular lightweight horns ever manufactured. Many thousands are in use on motor cycles and scooters throughout the world. The High Frequency tone unit gives a pleasing note and powerful volume. Smart chromium grille and rim front unit with black body. Available in 6 volt or 12 volt.

PRICE 23/6

IGNITION COIL

A staunch performer for machines with coil ignition. The special varnish filling has been developed to suit the peculiarities of motor cycles and scooters, also providing long life with exceptional performance. Horizontal H.T. terminal simplifies fitting in confined spaces. Strong steel fixing bracket.

6 volt model 32/6 12 volt model 35/-

SERIES 143B REAR LAMP

Now fitted with **GRADE 1** lens and reflector complying with the stringent requirements of BS 2516 and BS 2515. Brilliant, signal red, Diakon lens and tough construction means safety for you and other road users. Rear and stop lights provided by twin filament bulb which is available in 6v. or 12v.

PRICE 19/6

PLUG COVER AND SUPPRESSOR

Suitable for all vehicles. The Plug cover and suppressor are available separately. Cover units keep plugs clean and dry thus increasing efficiency and improving plug performance. Suppressor units are ideal replacements where existing units may be suspect or faulty. For complete details see separate leaflet.

PRICE 2/6 Complete

Cover only 1/6

Suppressor only 1/6

No. 10 HORN PUSH

The reliable horn push that is in use the world over, providing faithful service to thousands of motor cyclists and scooterists. However good the horn, it will not respond in an emergency without the unfailing assistance of a good horn push. Heavy chrome finish. No. 10 for $\frac{3}{4}$ " handlebars, No. 10A for 1" handlebars.

PRICE 3/9

No. 12 HORN and DIP SWITCH

The luxury type handlebar fitting combining horn push and headlamp dip or auxiliary lamp control switch. Solidly constructed, cast body and attachment bracket, finished in polished chromium. Looks neat and smart on any machine. No. 12 for $\frac{3}{4}$ " handlebars, No. 12A for 1" handlebars.

PRICE 9/6

Type 475 FOG LAMP

It's stainless steel

A smart addition to any machine — and tough stainless steel means good looks for life. No corrosion can lift or peel the surface of the lamp — it's rustproof right through! Ask to see this lamp and the matching Spot lamp at your dealer's. Wonderfully finished with new shaped, rim-lens. Choice of mounting brackets; bar, stud, or apron.

PRICE 53/6 6v. or 12v.

TYPHOON HORN

An attractive and well made horn, designed for A.C. operation, direct from generator. Ideal for machines without storage battery. Available for flush mounting or bracket attachment.

Types available:

A.C.575 6—10 watt operation
A.C.580 15—18 " "
A.C.585 19—21 " "

D.C.249 6v. or 12v.

PRICE 17/6 All types

ALPINE HORN

You won't be a frustrated follower with a set of Alpine horns. Terrific "Attention Demanding" note at the touch of a button. The new twin-coil tone unit is responsible and its special design obviates the need of a relay unit. **HIGH AND LOW** note available in 6 volt or 12 volt. Compact and light in weight these are the very latest horn development—and smart too!

PRICE 43/6 each

All Chrome Price 59/6 each

SERIES 185 STOP SWITCH

A stop switch designed to give reliable, trouble free operation and simple to fit. Carefully designed mechanism provides positive action and nylon bush for operating arm ensures long life and effective weather protection. Supplied with new "instant-fit" **SOLDERLESS** terminals, operating spring and attachment brackets.

PRICE 5/6

SERIES 179 REAR LAMP

A rear lamp of attractive design incorporating regulation reflector built into the brilliant Diakon lens. Twin filament bulb provides rear and stop lights. Available in 6v. and 12v. All Wipac rear lamps designed for motor cycles and scooters, incorporate a clear panel underneath for number plate illumination.

PRICE 17/6

Type 475 SPOT LAMP

It's stainless steel

The twin to the Type 475 Fog lamp. These lamps provide the ideal answer in combating adverse weather conditions. Spot lamp gives long pencil beam whilst the fog lamp is designed to throw a wide flat-topped beam to minimise backglare. Stainless steel body and bracket means no weather deterioration. Available with apron, bar or stud mounting bracket according to your choice.

PRICE 53/6 6v. or 12v.

TORPEDO LAMP

Attractive by day—Useful by night. This robust and elegant lamp has a chromium finished cast body that cannot dent or fall apart. Suitable for headlamp mounting or side car attachment. 6 or 12 volt available. Sold complete with bulb, lead and snap connector.

PRICE 15/-

(12/6 without rubber base)

TINA CONVERSION KIT

Special kit for all Tina owners—Converts machine to battery operation and includes 4 flashing indicator lamps with switch and flasher unit. After fitting kit it is

possible to add fog and spot lamps, stop light, more powerful horn, etc.

PRICE 115/-, less battery

BATTERY SUPERCHARGER

Charges 6 and 12 volt batteries at 3-4 amps in complete safety. Due to "compensated circuit" the Charger's BUILT-IN MEMORY reduces the charge as the battery charge increases. Will work mounted in upright position or lying flat on bench. Safety eye lights up whilst "mains" is switched on. Complete with ammeter, change-over fuse and circuit fuse, mains lead and battery leads ready fitted with spring clips. Operates from 230-250 volt and 200-225 volt mains supply.

PRICE 87/6

MONOPLUG

The modern version of the two-pin plug. Suitable for numerous applications on motor cycle or side-car. The complete item consists of a single probe plug, which cannot be accidentally reversed (e.g. when used for battery charging) and a socket unit.

PRICE 6/6 complete

Extra plug units 3/- each

ELBO-LITE

An elegant addition to your side car etc. Suitable for map reading at night, ideal for rallying. Light can be swivelled into any position through universal joint action. Includes automatic ON-OFF switch. Two models available. Stud mounting or plate mounting.

PRICE 27/6 6 volt or 12 volt

SIGNICATOR

A direction indicator lamp designed to show a legal area of light sideways and end-on. Specially designed convex base conveniently fits any contour and only one hole is required for attachment. Neat, attractive design and brilliant amber lens.

PRICE 13/9

ACCESSORY BAR OUTFITS

Specially designed to give motorcyclists and scooterists their own accessory bar—affords extra protection in an emergency too! Parking lamps built into the fixing brackets! Flashing "Signicators" that easily fit

into the ends of the bar! You must read all about these units on the separate leaflets which are available.

PRICES 45/- and 47/6

Type 470 FOG LAMP

it's stainless steel

The lowest price stainless steel Fog lamp on the market today. Superb brilliant finish with a wipe-clean surface for life! Available in 6v. or 12v. with a choice of three types of stainless steel attachment brackets. Stud mounting, bar mounting or apron mounting.

PRICE 42/6

PENETRAC LIGHT UNIT

A suitable 7" replacement light unit for most modern machines requiring this size. Superb H.Y.R. qualities ensure maximum light output. Aperture for pilot bulb incorporated. Accessories also available such as:— Rim, main bulb holder, pilot bulb holder and reflector clips.

PRICE 17/-

SERIES 134 LIGHT UNIT

This 5½" H.Y.R. replacement light unit is suitable for headlamps with 6" or 6½" rims. Includes pilot bulb aperture. Rims, main and pilot bulb holder and reflector clips also available if required.

PRICE 14/3

SCOOTA-LITE

(Suitable for Wipac Accessory Bar)

A highly successful auxiliary lamp for motor cycles and scooters. Designed to give a wide angle beam of diffused lighting. Peaked rim obviates backglare. Available in 6 volt and 12 volt and complete with fixing bracket, lead, snap connector and bulb.

PRICE 29/6 with clear or amber lens

SIGNICATOR KIT

All complete to fit your machine with large, brilliant, flashing indicators. Outfits include "Signicators" with bulbs, switch, flasher unit, leads and special adaptors if you wish to fit them into the ends of a Wipac Accessory

Bar. 2 and 4 lamp kits available in 6 volt and 12 volt.

PRICES 55/- to 82/-

Signicator lamps only, 13/9 each.

Type 470 SPOT LAMP

its stainless steel

A twin lamp to the Type 470 fog lamp. Provides bright pencil beam. Also available in 6v. or 12v. and three types of bracket attachment. The stainless steel body and bracket means a rust-proof and stain free life!

PRICE 42/6

SERIES 118

Similar to the PENETRAC light unit in size, this unit has a special lens to give left, right or vertical dipping, depending on the type of bulb fitted. Pilot bulb aperture is incorporated in the reflector. Suitable for home use and Continental touring.

PRICE 17/-

(17/- without pilot bulb aperture)

GREY KNIGHT RANGE

A twin set of fog and spot lamps with silver-grey bodies and profiled chrome rims. Each is complete with bulb, connecting lead with snap connector and dual purpose attachment bracket for bar or stud mounting. Spot lamp has clear lens and fog lamp has amber lens. Perhaps the finest value on the market today.

PRICE 31/6 each

FULL DETAILS OF EACH PRODUCT ARE DETAILED ON SEPARATE LEAFLETS

This folder only intends to give brief details of Wipac products. Each product is fully described on a separate, coloured leaflet which we will be glad to supply upon request. These may be obtained by writing direct to us or from reputable dealers, where many of the actual products can be inspected and purchased.
