# The Unitop Cabinet Receiver.

OPEN.

CLOSED

Constructed to contain an A.J.S. Four-Valve Receiver, the Unitop Cabinet combines the maximum of wireless efficiency with the minimum of space. Produced in Mahogany or in Light or Dark Oak, as preferred, the Unitop Cabinet shown is of distinctly handsome appearance.

It forms a compact and attractive article of furniture, and may be placed upon any convenient table, while it is sufficiently portable to be carried on the seat of a car, or boat, to any outdoor function where it may be required for music or dancing.

The materials and workmanship employed in the production of these Cabinets are of the best throughout, and fully maintain the A.J.S. tradition of "quality first."

The Unitop Cabinets are supplied in Mahogany, or in Light or Dark Oak, complete with Four-Valve Receiver and all Accessories ready for use.

PRICE ... .. 30 Guineas.

# The **A.J.S.** Loud Speaker.

Designed to embody in the one Model the most effective combination of components, each perfect in itself, the A.J.S. Loud Speaker is the outcome of lengthy research and experiment, and justly claims to be the last word in Loud Speaker design.

The accurate proportions and smoothly blending curves of its non-resonant horn give to the A.J.S. Loud Speaker those correct acoustic properties which ensure the true reproduction of the sound waves, while its extreme sensitiveness enables the utmost volume of sound to be produced, with a complete absence of distortion.

Its robust construction, pleasing design, simplicity of adjustment, trueness of reproduction, and purity of tone render the A.J.S. Loud Speaker equally suitable for use in a Public Hall or in the home of the most fastidious.

The A.J.S. Loud Speaker does not require a stepdown transformer, as it is specially wound to a correct impedance for music and speech, and may be used wherever a high resistance is required.

PRICE, WITH METAL HORN AND ELECTRO-PLATED FITTINGS,

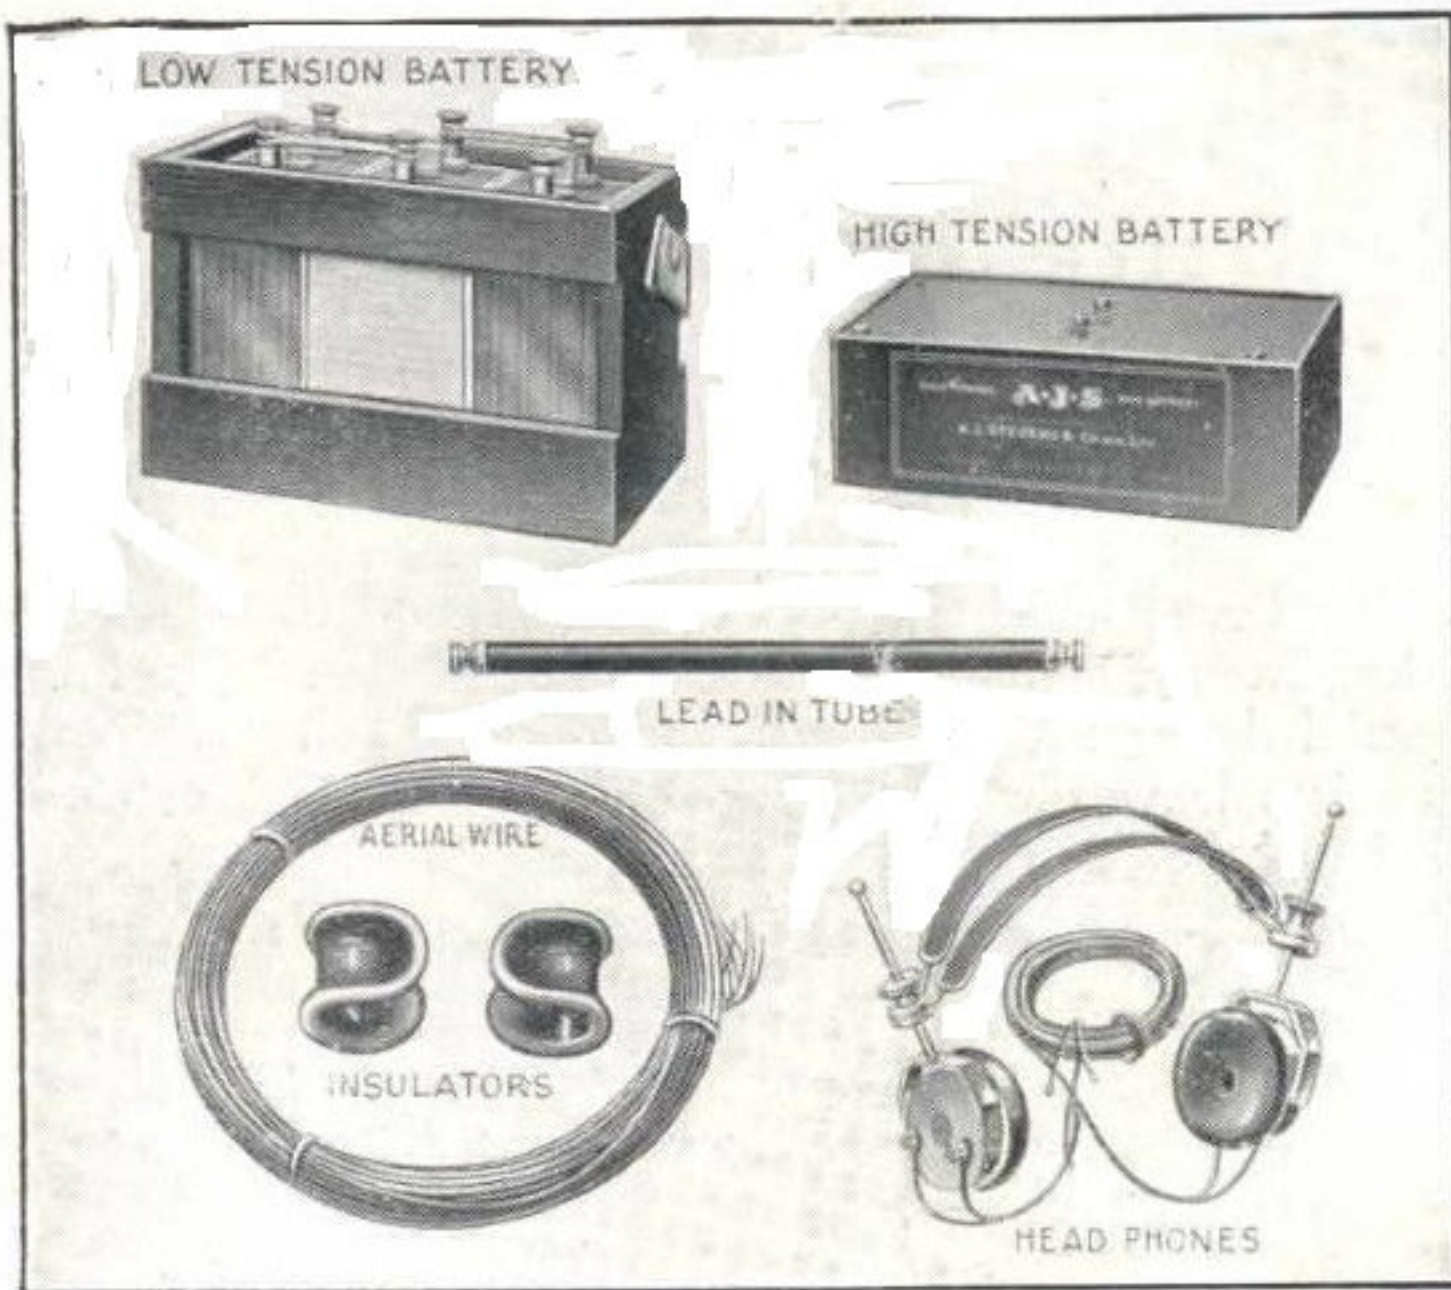

**£4 15 0**

WITH MAHOGANY OR OAK HORN AND ELECTRO-PLATED FITTINGS

**£5 10 0**

# Accessories.
