

# Be Sure to See Olympia's QUALITY RANGE

For 1937, as in previous years, outstanding quality is the principal feature of all A.J.S. models. Here are some of the special refinements which have earned for them the well-deserved title of the "Quality Range": Totally Enclosed Overhead Valves with pedestal-mounted Valve Springs . . . Full Pressure Lubrication to Overhead Valve Gear on all O.H.V. models . . . New Design Cylinders and Cylinder Heads with Oval Cooling Fins . . . New Deep Contour Petrol Tanks of over 3-gallons capacity on all models . . . Fully adjustable Handlebars, giving New Comfort riding position . . . and, above all, four entirely new 500 c.c. Models—a Single-Port O.H.V. Sports machine—a Two-Port O.H.V. de Luxe Model—a Special Competition Model and a new sturdy Side Valve Model.

Post the coupon below for the new 1937 A.J.S. Catalogue.

A typical example of A.J.S. quality:  
Model 37/26, 3.47 h.p.  
Two-port O.H.V., 48 Gns.
