### PRINTING BLOCKS

The MATCHLESS advertising programme, although extensive cannot reach every potential buyer, and dealers will recognise that their own local newspapers, club magazines etc. constitute inexpensive but highly effective media. To assist dealers in this respect, the blocks listed above are available as either stereotypes or matrices to all officially appointed MATCHLESS dealers.

Our Publicity Department will be pleased to assist dealers with any advertising problems they may have.

#### IMPORTANT

Always quote Reference Numbers when ordering stereotypes or matrices, and state whether motorcycles are required with either black or chromium tanks.
