INTRODUCTORY AND INSTRUCTIONS FOR ORDERING.

All Sidecars bear the 1930 prefix letter "R."

A **SIDECAR** is a vehicle consisting of a chassis and a body, each of which bears its own designation. Chassis are indicated by letters, and bodies by figures. All possible combinations of chassis and body are enumerated in this list.

When ordering, it is essential to state to which side of the machine the chassis is to be fitted, in cases where the description shows it is possible to fit either on right or left hand side.

When ordering chassis only, quote the model letter. Similarly, quote the model figure for bodies.

If a sidecar complete is required, quote the number indicated below the description.

If any other size of wheel or tyre is required than that specified, the order must state clearly what is desired.

WHEEL TABLE.

Chassis fitted to 9.96 h.p. motor cycles all have wheels size $19 \times 2\frac{1}{2} \times 40$ with tyre size 26×3.50 , Home and Export.

GUARANTEE.

This Guarantee covers New Chassis, complete Sidecars or parts therefor manufactured by us.

We give the following guarantee with our Sidecars, which is given in place of any implied conditions, warranties or liabilities whatsoever, statutory or otherwise, all such implied conditions, warranties and liabilities being in all cases excluded. Any statement, description, condition or representation contained in any catalogue, advertisement, leaflet, or other publication, shall not be construed as enlarging, varying, or over-riding this guarantee. In the case of sidecars which have been used for "hiring-out" purposes, or from which the trade mark, name or manufacturing number has been removed, no guarantee of any kind is given or is to be implied.

We guarantee, subject to the conditions mentioned below, that all usual and reasonable precautions have been taken by us to secure excellence of materials and workmanship, but this guarantee is to extend and be in force for six months only from date of purchase, and damages for which we make ourselves responsible under this guarantee are limited to the replacement of any part which may have proved defective, and any work involved by us in the replacement of such part or parts will be charged for. We undertake, subject to the conditions mentioned below, to make good at any time within six months any defects in these respects. As motor cycle combinations are easily liable to derangement by neglect or misuse, this guarantee does not apply to defects caused by wear and tear, misuse or neglect.

The term "misuse" shall include, amongst others, the following acts:—

- (1) The attaching of a sidecar to the motor cycle in such

a manner as to cause damage, or calculated to render the former unsafe when in use.

- (2) The use of a sidecar when carrying more persons, or a greater weight than that for which the sidecar was designed by the manufacturers.
- (3) The attaching of a sidecar to a motor cycle by any form of attachment not provided or supplied by the manufacturers, or to a motor cycle which is not designed for such use.

We accept no liability for sidecars used in racing, but any trouble arising in such sidecars will have our consideration at our discretion.

Any chassis, complete sidecars or parts sent to us to be plated, enamelled or repaired, will be repaired upon the following conditions, i.e., we guarantee that all precautions which are usual and reasonable have been taken by us to secure excellence of material and workmanship, such guarantee to extend and be in force for three months only from the time such work shall have been executed, or until the expiration of the six months above referred to, and this guarantee is in lieu and in exclusion of any common law or statute, warranty or condition, and the damages recoverable are limited to the cost of any further work which may be necessary to amend and make good the work found to be defective.

Conditions of Guarantee.

If a defective part should be found in our chassis or sidecars, or in any part supplied by way of exchange before referred to, it must be sent to us CARRIAGE PAID, and accompanied by an intimation from the owner that he desires to have it repaired or exchanged free of charge under our guarantee, and he must also furnish us at the same time with the number of the sidecar, the date of the purchase, or the date when the alleged defective part was exchanged, as the case may be.

Failing compliance with the above, such article will lie here AT THE RISK OF THE OWNER, and this guarantee, and any implied guarantee, warranty or condition, shall not be enforceable.

We do not guarantee the specialities of other firms, such as tyres, lamps, etc., or any component parts supplied to the order of the Purchaser differing from our standard specifications supplied with our sidecars, or otherwise.

The Terms of Business for Sidecars and Chassis are the same as for A.J.S. Motor Cycles.

IMPORTANT.

Chromium Plated Fittings to any Sidecar may be had, if desired, without extra charge.

In addition to Chassis K.P. & S., the following, which also have Cradle Wheel Frame, are fitted with A.J.S. Quick Detachable Wheel, L, R, U and W.
