EXETER.

Dear Sir,

In reply to your letter of the 14th January, 1964 we can only offer an assumed setting from which to commence tuning with a 1.1/16" diameter T 10TT9 Carburetter on the Veloce KSS that we have now forwarded, with regards such a setting we suggest that you initially commence with main jet 330, valve 4 and needle jet .109" and needle position 3.

We are enclosing our List 606/3 and 607/2.

Yours faithfully,
pp AMAL LIMITED.

Dear Sir

Thank you for your letter of 20 April, and we have to advise you that we can still supply valves, needles and other internals, but we are sorry the mixing chamber body itself has been obsolete for some time and we have no stock.

We are enclosing herewith leaflets which may be of interest to you.

Yours faithfully
for AMAL LIMITED
