

Frame Numbers start with an A or a number between 1 and 9, and were stamped into the metal - please be careful, as the frames are also covered with six figure casting numbers (or part numbers) which all start with 0 and stand proud of the metal. Please take numbers from the machine rather than log book or registration documents.

### LOCATION OF FRAME NUMBERS

Norton Dominator - on the left  
rear frame gusset above the rear  
pivot point. Stamped in a  
vertical line, with model number  
and year code below.

Norton-type  
frames - as 1960-67  
but on left-hand side
