November 25th, 1929.

1930 SPARE PARTS LISTS.

Dear Sir(s),

We have much pleasure in enclosing herewith complimentary copy of the above publication. We desire to draw your attention specially to the instructions on Page 6 with regard to the numbering system.

We are following the principle adopted in 1929 of inserting a "dagger" against the price of all parts which are proprietary, and on which a lower rate of discount is allowed.

It has been decided to supply spare plated parts for all 1930 models, when ordered as spares, with chromium plated finish. It will be noticed that certain of these parts bear the 1929 series of numbers, and that the price differs for 1930. It is essential, therefore, when ordering, to state the model and year for which the parts are required.

When the stock now held at the Works of nickel plated parts of all types is exhausted, such parts will be supplied in chromium finish only.

Yours faithfully,
FOR A.J. STEVENS & CO. (1914) LTD.,

A. J. Stevens

With the Compliments
of
A. J. Stevens & Co. (1914) Ltd.

YOUR REF:
OUR REF: HJB/IL.

EXPORT DEPT.

16th December, 1930.

Mr. J. Moffat,
31, King St.,
Weston,
ONTARIO, Canada.

Dear Sir,

We acknowledge receipt of your letter of December 1st, and as requested we enclose herewith a leaflet illustrating and describing our 350 c.c. and 500 c.c. O.H.C. machines.

We regret to inform you that it is impossible for us to supply you with a 250 c.c. O.H.C. T.T. replica, as we have decided not to manufacture any of these machines, due to production difficulties.

The approximate maximum speed of the S7. machine is 83 - 85 m.p.h. running on petrol Benzol mixture and a 7.5 to 1 compression ratio piston. We include a high compression piston giving a ratio of 11 to 1 with both the S7. and S10. Models. This of course must be used in conjunction with Discol fuel and when this is fitted to the S7. machine the approximate maximum speed is 90 - 95 m.p.h. The approximate maximum speed of the S10. machine is 88 - 90 m.p.h. running on petrol Benzol mixture and 95 - 97 m.p.h. running on Discol fuel and with a high compression piston fitted.

These Camshaft machines should not be confused with the fast touring O.H.C. machines we manufactured during 1928 and 1929. Our present camshaft models have the attention of a special competition department and we have highly skilled men for assembling and testing these machines before they leave our factory.

Mr. P. A. McBride of 36/38, Queen Street East, Toronto,

our Canadian agent will be able to inform you of the prices of both of these machines in Canada.

Yours faithfully,
for A.J.STEVENS & CO.(1914)LTD.

W. J. Beech

18th November, 1940.

Dear Sir,

With reference to my order for Matchless spares, dated 13th October, and your acknowledgement of same, ref. VH, dated 16th October. These goods are not yet to hand.

I find it difficult, even allowing for present day conditions, to understand this very considerable delay in delivery of goods which, as you state in the above mentioned letter, are in stock.

I should be glad if you would investigate the matter and forward the available spares with as little further delay as possible.

Yours,

ASSOCIATED MOTOR CYCLES, LTD.

Dear Sirs,

We thank you for your letter of the 22nd inst., and we are pleased to hear that you have acquired the premises next door.

In connection with some advertising material, we shall be pleased to supply some and if you are calling in the near future we would let you see what is available, otherwise, we will forward you a selection. Regarding Francis Barnett and James it would be necessary to apply to Birmingham.

Thanking you.

Yours faithfully,
MATCHLESS MOTORCYCLES LTD.,

Dear Sirs,

We have to acknowledge your letter of the 10th inst. but unfortunately the mere quotation of Frame Number is not sufficient to enable us to identify the type of machine you require spares for. This is because we number all frames of every series from zero upwards. Please quote the Engine Number which will have one or more letters incorporated in it. These should also be quoted.

(COLLIERS) LTD.
Plumstead Road
Plumstead
London
SE 18

1st August 1935
dict: 31/7/35

Shirley Moran Esq.,
65, Park Avenue,
Sydney Parade,
DUBLIN.

Dear Mr. Moran,

I am very glad to have your letter of July 29th and to know that you are pleased with what we did to your machine. I hope you will find it goes as well as it looks and that you will wipe up some more trials in due course.

Your postscript is very bad reading as I told Duffin only the other day that I thought we should be sending a team and that in that case I should certainly be worrying you to take part. After all what better holiday could you want and what cheaper holiday could you have. Let me know if it is not possible for you to change your mind as we shall be deciding in one way or the other in two or three days and if you cannot go, I shall have to find somebody else and I don't know where to look. The trouble is that most trials riders are alright for half-day, but no good on long distance stuff, whereas we know that you can stick it and be depended on to put up a good show.

In any case your life is all holiday rowing round light houses in a small boat, so what on earth you want another holiday for I cannot imagine.

Yours sincerely,

P.S. Since writing the above, I have sent you a reply paid wire, asking if you will ride in the International, if we pay your expenses. I hope you will say yes, in which case please treat the matter as confidential.

2nd April 1937

Shirley Moran Esq.,
65, Park Avenue,
Sydney Parade,
DUBLIN.

Dear Mr. Moran,

Many thanks for your letter of April 1st, from which I am pleased to hear that you have now been officially nominated for the Irish Vase Team. I am therefore making arrangements for a machine to be available for you in good time for the event. We have not yet decided what model we shall run, but of course it will be either the 350 or 500 Clubman. I will ask George Rowley to get in touch with you when we have decided which is the best model and he can also let you know about the petrol, oil and plugs. He is away on a trial at the moment, but will be able to write you early next week.

Meantime I again confirm that we shall be pleased to offer you a bonus of £5 for a gold medal and I sincerely hope you will get it. You know already that we shall do everything we can to make the machine satisfactory, so I hope you will have a really good ride.

Sincerely yours,

Hope you are keeping fit & training the cavalier regularly.

Dear Sir(s),

Re:- Model 37/G2M.

We beg to acknowledge your favour to hand, and have pleasure in enclosing herewith Instruction Book suitable for the above machine, which we trust you will find of interest.

We would point out that a nominal charge of 1/- is made for replacement copies of these Books, one copy only being supplied free of charge with each Machine when new, and remittance in payment at your convenience will oblige.

Assuring you of our best attention at all times.

Yours faithfully,

LEE, S.E. 12.

Dear Sir,

We are in receipt of your letter of the 13th instamt, with remittance £2.10s.0d. enclosed, receipt for which we have pleasure in attaching hereto. This amount has been placed to the credit of your Account.

We are placing your Order in hand for earliest possible delivery, but there are several items which we are unable to supply, owing to the fact that our stocks have become exhausted. These items we give below. We would explain that at the moment our entire output is being absorbed by urgent war needs, and although of course we intend to manufacture further supplies as an opportunity occurs, the position is such that we can give no delivery promise whatever under present circumstances, and we shall be glad therefore, if you will re-order these items at a later date if required, when we are in a position to supply.

Regretting that we cannot be of complete service to you on this occasion.

Yours faithfully,
MATCHLESS MOTOR CYCLES.

Nr. Uckfield.

Dear Madam,

With reference to the visit of your son yesterday, I am pleased to inform you that we are prepared to give him employment, and that his rate of wages will be 3d per hour, plus bonus when on production work. We would like you to clearly understand however, that we cannot accept him as an apprentice as we do not accept apprentices., but every opportunity will be given him to make headway and progress will be entirely in his own hands, advancement being given on merit. He can start work on Wednesday morning the 30th inst at 8 a.m.

With regard to lodgings we have arranged through our Welfare Department to introduce him to a married employee who is prepared to give him lodgings. This will at any rate give him immediate accommodation and if it is not to his liking it will allow him time to make other arrangements. We would also mention that our Welfare Supervisor will keep an eye on him and will also help and advise him in any difficulties that may arise.

Yours faithfully,

ROAD TRAFFIC ACT

PILLION SEATS

The Act requires that your pillion shall be a "proper Seat, securely fixed."

We claim this Hutchinson Pneumatic Pillion to be a proper seat because it has been scientifically designed and carefully produced for this specific purpose.

That it can be securely fitted is proved by the Faraday House Certificate of Test (printed overleaf) indicating a total tensile resistance for the four points of attachment far in excess of actual requirements.

It only remains, therefore, for you to do your part and fit your seat carefully and securely. Fitting directions are enclosed with each seat.

FIT SECURELY and BE SAFE

REPORT OF A PILLION SEAT STRAP AND CLIP

In accordance with your instructions of 26th January we have tested the Pillion Seat Straps and clips you submitted to us, and have pleasure in reporting as follows:-

The Pillion Seat Straps submitted was a "Pneumatic" leatherette and fabric strap with clip. These were attached to a piece of baggarts. This was first firmly and a tensile load applied to the strap. The following result was obtained:-

RESULT: The strap withstood a load of "Pneumatic" fabric strap and clip.

Alex. Russell
Principal,
A. J. Weston
Superintendent of Testing Laboratory.

(F-344-36)

KEEP THIS WITH YOUR DRIVING LICENSE

The above Faraday House Certificate indicates a margin of security far in excess of actual requirements.

RETREAT STREET,

WOLVERHAMPTON, 16th January, 1936.

Dear Sir,

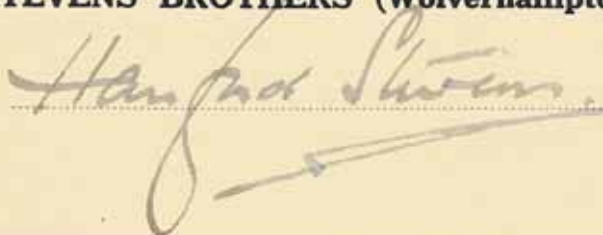

In accordance with your request we have pleasure in enclosing herewith a 1936 Catalogue of our Motor Cycles.

Our Motor Cycles are designed and built to meet the needs of the discriminating Motor Cyclist, and are characterised by their clean, accessible, well finished design and high class performance, coupled with mechanical and exhaust silence, smoothness of transmission and excellent road-holding qualities.

The name and address of our nearest Dealer is given below, and we should be happy to give you any further information you may require.

Yours faithfully,

For STEVENS BROTHERS (Wolverhampton) LTD.,

YOUR NEAREST STEVENS DEALER IS:

J. Fergusson,
